### WHAT'S THE DIFFERENCE?

**Exchange** semester programs are programs where students pay UW-Green Bay tuition to go abroad.

**Direct Enroll** semester programs are where students pay the tuition of their host university.

Both types of programs vary in housing prices, costs of living in that country, and additional insurance and/or visa fees, which also make the differences in cost.

## Interim Programs

Interim programs are intensive study experiences administered through our partner institutions during interim periods such as summer or winter break.

Most interim programs have an estimated cost of \$4,500-\$6,500. This cost breakdown is similar to semester programs and includes estimates of expected costs.

## Faculty-led Travel Courses

Travel courses are short term programs that are taught and led by a UW-Green Bay faculty and/or staff member. Programs are typically 2 to 4 weeks in duration, department specific, and vary from year to year. These courses occur during the winter, summer, and spring breaks.

Most faculty-led travel courses have an estimated cost of \$3,000-\$6,000. These are generally inclusive of **ALL** costs except some meals and personal spending. Costs are based on a minimum number of students.
