VII. New Business

a) Senator Jamie Wallj

- **Jamie Wall:** I was active in SGA. I a seeing SUFAC is still going. I am glad to be here. There is a good chance. Rental car for lobbying day is in Madison. It is useful for your hometown. It is an interesting budget. Pandemic relief is running out. The

governor is boosting the UW system. When the republican will not hold up. We will hear the budget next week. The University of Wisconsin changed my life. I am a farm kid and the first in my family to attend college. I applied to UW Green Bay and UW Madison. I started it for \$800.00 a semester and at the end it was \$1200.00. We will not have \$800 anytime soon but we should be helping improve the school. I have a 4-year team here for Madison.

- **Moises:** what does a day as a Senator Day in a life?
- **Jamie Wall:** It is off to a slow start. Republicans does not want to move fast as a spring election is about to happen. It is not a governing majority in a few things. They will be cautious and make sure they have them. A few have been confirmed. Administrative and getting to know my colleges. UWGB is the basic school that is doing well. Enrollment is increasing. You had a few chancellors that set upside levels. Saint Norbit day having budget cuts and having to lay people off. It depends on the day. I hired a pretty good staff.
- **Radwa:** With this upcoming election. What do you think the effort for the UWGB students to go out and vote?
- **Jamie Wall:** spring elections do not get the election. \$50 million will be spent. Your votes matter more here than it does in the presidential election. UWGB is what leaned more democratic than the other UW schools.
- **Sawyer:** What is your stants on public transportation and what do you think could be better?
- **Jamie Wall:** Madison is doing some interesting busing called poor person. They

were taken out of the transportation funds, and they have been put into the GBR dollars are contested because everyone wants some. I knocked on almost 19,000 doors. Housing cost are a big problem. The cost of a house is going up and up. My eyebrows raised when people told me what they pay each month. Good things are happening just not fast enough. This goes back to housing. Housing is a big part of transportation. The Transit director here is to shrink them and make them come every 30 minutes instead of 1 hour.

- **Nathan:** What is your biggest thing you took away from being in SGA?
- **Jamie Wall:** 2 good things. 1 1992 was a presidential election and we ran a nonpartisan 8,000 people to vote. This is conversational because we got SUFA gave us the email. Try to hold on to some of your friends.
- **Moises:** What are the main values for running as a senator related to the people
- **Jamie wall:** I have 180 different bosses. Collecting a few more collages. My district I have a few close in mine but I need to keep my voters happy. The NFL Draft is coming up and we are going to be need more first responder's president. Education and housing were a big problem they said. Personal I spent most of my career and work on some. Once occupations they like to talk, and they have heard it before.
- **Radwa:** Feeling represented to help maintain in the senate for equity and diversity?
- **Jamie Wall:** I try to be respectful for them all. It does not matter to me who or what their background is. There are not enough white people to get the job done. Straight white guys like me do not have the recourse to do it. Depending how

scared people are in this. We are stronger and we can be involved in this.

- **Ethan:** The government Passed a law to end arts and performance. How is your role a
- **Jamie wall:** wisconsin is 49/50 and we should be up higher. The things coming from them. Everyone in Madison is in a panic over the federal medicate which is about 20% of the state budget. It is health and everything else with education. Everyone is closely watching Washington and what the next weeks will look like.
- **Nathan:** What do you do when there is a Conflict
- **Jamie wall:** I have emotions, but I have learned to hold them on my sleeve. I also learned that you cannot change people's minds on some things.
- **Sawyer:** In terms of law crafts what do you hope to complete?
- **Jamie:** If for my first year I would think it is a win is a few things I can sneak into the budget that will help the people.
- **Adham:** what advice can you give to us students to build a career in forming a political career?
- **Jamie:** intership go for them. Work hard if you do want it. You can afford to have people who will help you win. Raising money and helping sign papers for what must be presented.
- **Lorendy:** You students are rerepresented in the state and national decision making?
- **Jamie:** I think what I am doing is important. We have to many leaders who. The set is different because the time. Climant change. Nucler missules and climant

change. Think about things that will happen in the next 4 years

- **Tanisha:** I see you went to Oxford what was it
- **Jamie:** i wanted to win the scholloship more than being a graduwit school. It was interesting. It is one of the world gratest schools. chance to travel and it open doors. Open diversity. Higher education is important.
- **Caden:** mention the increse tuition. How do we cure it
- **Jamie wall:** We just do it. I would not have the schedual. You have some things in common and other things are not. What is happening the medicade, uw budget, and. The other part is voting a far mart into majority for the house
- **Nathan:** Less in your life you learned the hard way
- **Jamie Wall:** I ran for congress and that is bighting off more than I can chew. That experiment could of ben this election. The personal its the hard way but keep in toatch with you friend, I ran for 19,000 doors.
- **Karime:** Thank you
- **Jamie Wall:**
