Offer Recovery Fee:	We are able to make Equipment available to our government customers at significantly lower prices than the manufacturer's list prices by offering various subsidies in exchange for the customer meeting certain conditions. Here, if the Customer purchases Equipment from Verizon Wireless at a discounted price and then disconnects that Equipment from the Verizon network, or moves the Equipment to a Lesser Price Plan, prior to the expiration of 24 months after the date of activation, Verizon Wireless may recover an Offer Recovery Fee for the disconnected Equipment. The Offer Recovery Fee will be the difference between the full retail price of the Equipment at time of purchase and the discounted price paid by the Customer for the Equipment, plus any additional service discounts, credits, waived fees, and other offers provided, less 1/24 of that amount for each month the Equipment was connected to the line of service.
