V. Reports

- a) President: Riley: We have been looking for an Environmental Affairs chair and we've possibly found one. Last week, I met with the chancellor regarding the budget. The Manitowoc and Marinette campus library are closing down, however, students will still be

- able to borrow library items. There was also a hiring freeze put on; the university will not be hiring any new faculty; The university is in a tight spot currently.
- b) Vice President: Tanisha: I've been working on the blood drive and we did get outreached from Rice University in Texas and talk about how we implemented the program and how our students received it. I had the SART meeting today; they were unaware of student concerns on how student Title 9 cases were being handled; they are willing to work with us to provide an advocacy program on campus and checking in with students.
- c) Speaker of the Senate: Lucas: Last meeting, we had Chartwells come in. I was glad that everyone could voice their thoughts in a professional manner. So far in the senate, I've started doing mid-semester check-ins. Still working with the plan for next Monday's senate meeting because there is also the Krash the Kress event; so next Monday's meeting will probably be shorter.
- d) RHAA: Ryan: Bingo is tomorrow at 8 PM in the Phoenix Rooms. This week, we won't have a meeting because we are volunteering at the basketball game.
- e) SUFAC: Nathan: We had a really busy week with contingencies. I'm going to list them all out. During our meeting, we approved Women's Volleyball and Men's Volleyball travel request; Men's wanted volleyballs and whiteboards as well. Pre-Med, Pre-Vet and all the other Pre clubs are coming together to do an event together. We just finished presenting org's budget training. Approved Socials Worker's Party request. A new club started, Taylor Swift Club.
- f) Location Campuses: Karime: As of now, the Manitowoc Campus has been posting events for their students such as the Pumpkin Carving event. The Sheboygan campus now has a full

SGA and they also did a Pumpkin Carving event on their campus. As of right now, there is no SGA at Marinette. I'm probably going to plan a trip to Marinette in hopes to get more people to join SGA at the campus.

g) Advisors:

- Adam: The blood drive is coming soon on November 16! Please spread the word to students that they can sign up for the blood drive and that they can also donate blood if they want.

## VI. New Business

a) Teambuilding, facilitated by Katie

b) SMART goals

- Worktime (five minutes)
- Sharing

c) Everyone's SMART Goal

- Riley: My first smart goal is having the budget presented to the Senate by the end of the semester. My second smart goal is having a new system of Student Government in place by next election.
- Isaiah: My smart goal is to implement a way for students to get school supplies in each of the academic halls for free.
- Nathan: We gotta survive!!
- Riley (Athletics): By the end of the year, increasing student participation and athletic activity by 15% through the implementation of new programs and

enhanced communication with students.

- Isaac: Finishing up the constitution or getting the new draft of the constitution out.
- Ryan: We gotta survive!!!
- Kayla: To have at least 2 projects, specifically the paper towels stockage issue and increase social knowledge and usage of the phlash tiks program.
- Monica: My year long goal is educating myself on the student sources available on campus. In my position, I feel that this is something I should be aware of because I work with all sorts of students.
- Tom: Building a good connection between the school and the committee. I'd also like to report at the end of the semester about what was going on with RMs not getting paid and why they were happening; that way there is sort of a measure of recording. My last goal is to improve the connection between student workers and the school.
- Lucas: Working to bring in more senators and that they and the current ones feel welcomed in the org and that their goals and needs are being met. My goal is to get 10-15 senators; we now have 11.
- Chee: My goal is to continue being the Administrator until Riley leaves.
- Tanisha: My goal is to have a database presentation about the menstrual product program, ready to present to administration by the end of the semester with the intention to hopefully expand the program.
