

**Certified Direct Care Professional
Referral Incentive Program**

Earn \$250 per referral — no limit!

Encourage others to become Certified Direct Care Professionals

Congratulations on completing your certified direct care professional (CDCP) training and certification. You are now eligible to earn an extra \$250 for every friend or colleague you refer to the CDCP program. There is *no limit* to the number of people you can refer!

Here's how it works

Anyone you refer to the program must:

- Register for online training at WisCaregiverCDCP.com or WisCaregiverCDCP.com/es (Spanish).
- Fill in your name and email address (only one referral per registration).
- Complete their training and be certified by March 31, 2025.

Once your referrals are listed on the CDCP registry, you will be mailed a check for \$250 within about six weeks.

Why should your friends and colleagues become CDCPs?

- CDCP training and certification testing is free and online
- The program can be completed in about 30 hours
- Registered CDCPs can connect to employers across Wisconsin
- CDCPs can earn up to \$500 bonuses
- CDCPs can grow into future positions, such as a certified nurse aide (CNA), medication aide, licensed practical nurse (LPN), registered nurse (RN), administration, and more.
